MODEL 1311

CURTIS

DESCRIPTION

The Curtis Model 1311 Handheld Programmer simplifies the programming, testing and diagnosing of Curtis Speed Controllers and Auxiliary Devices.

WARRANTY

Two Year Limited Warranty
(see terms of sale for specifics)

Application

The Curtis Model 1311 Handheld Programmer provides a simple and intuitive interface to Curtis products for testing, diagnostics and parameter adjustments.

Features

- Compatible with all Curtis speed controllers and auxiliary devices.
- Backward compatible to the Curtis Model 1307 Programmer.
- Easy menu navigation with clear and intuitive parameter organization.
- Inc/dec key for real-time adjustment of parameters.
- Read and clear fault history, monitor real-time data and perform tests.
- Bookmark keys facilitate fast swapping between three user selected menus.
- Detail Screen shows units, min/max ranges and bargraph.
- Allows cloning of parameter settings between controllers.
- Graphic LCD can display up to seven lines of information.
- Restricted data is controlled by four access levels: OEM, Dealer, Service and User.
- Cable options to interface with all Curtis controllers: Molex, Conxall and RJ11.
